NAVAL OPERATIONAL MEDICINE INSTITUTE

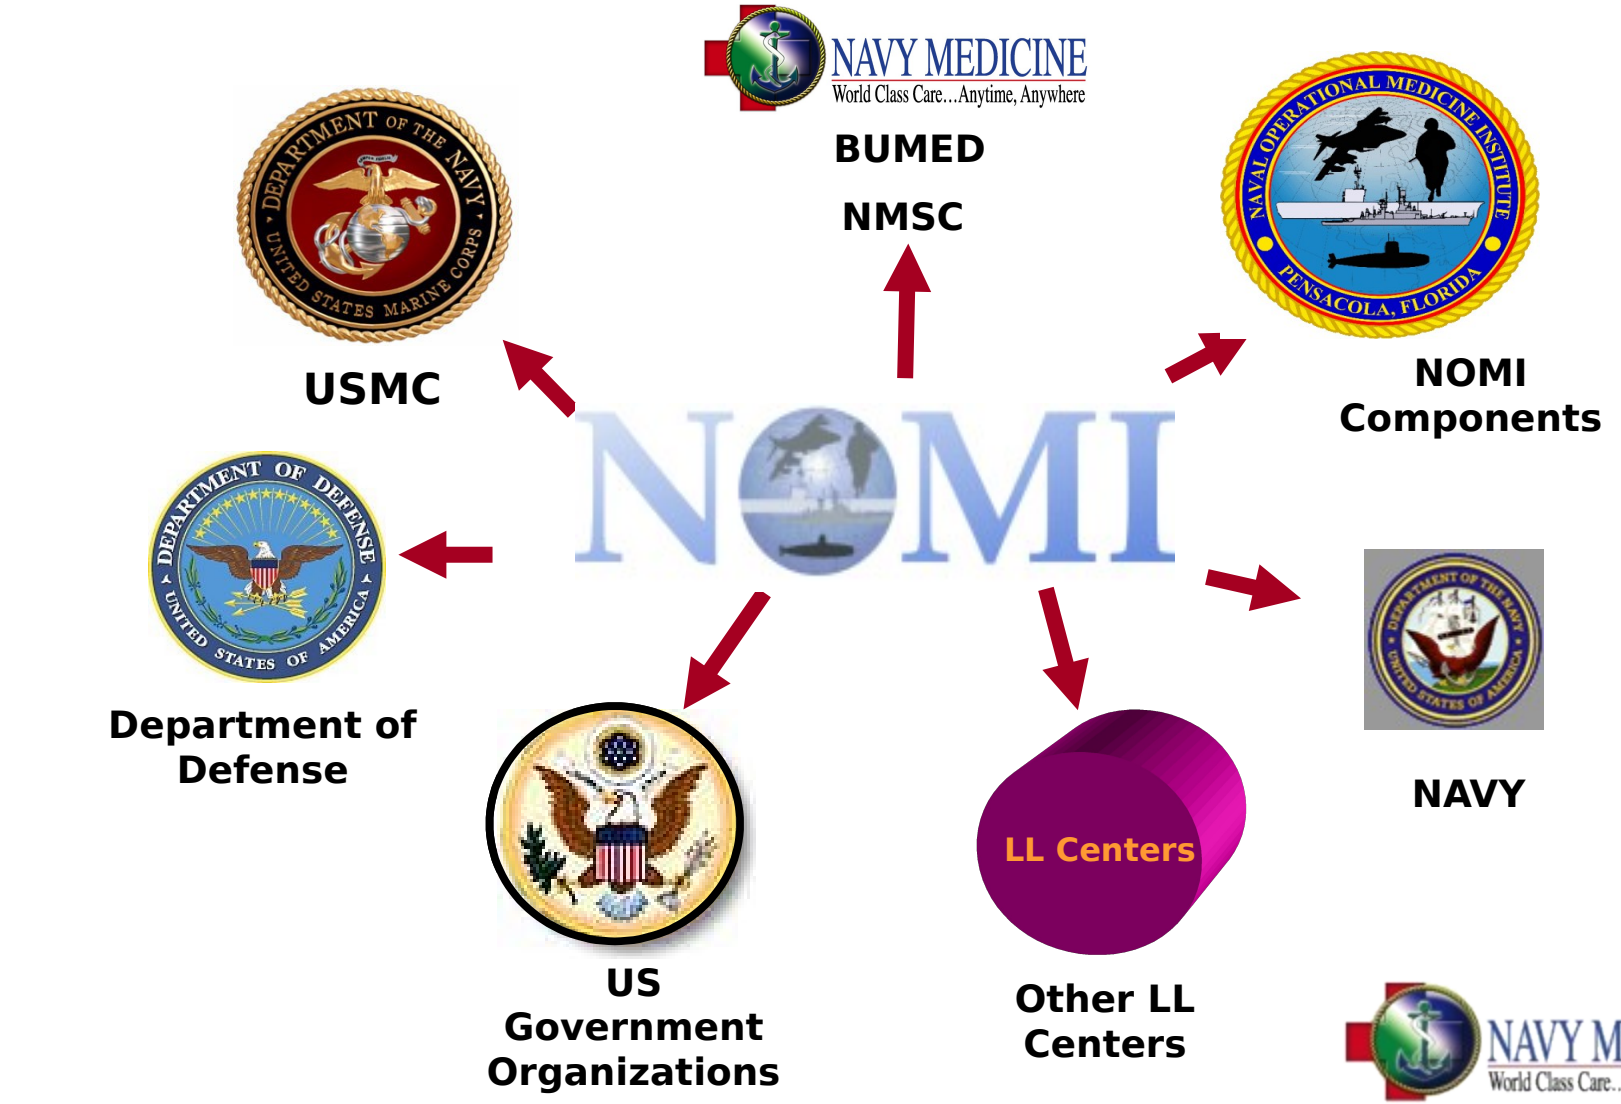
CUSTOMERS



Mission Support to the Fleet

Training:
Aviation Survival: NSTI ~22,500
Operational Medicine: NEMTI, SWMI, NAMI & NUMI ~ 3,600

Aeromedical Dispositions:
Consultations: 14,400
Physical Exams: 6,200

Physical Qualification Programs:
Waiver applications processed: 13,512
Aviation Selection Test Battery: 10,699

Naval Expeditionary Medicine Training Institute

Provides instruction on the assembly, disassembly, establishment of command structure, and basic operations of a Navy Fleet Hospital and Expeditionary Medical Facility.

Serves as the Navy's field test and evaluation center for Deployable Medical Systems Equipment and Doctrine.

Provides support to Fleet Hospital Assist Teams (FHAT) to facilitate world-wide deployment of Fleet Hospitals and Expeditionary Medical Facilities.

COURSES & LENGTH:

- **Fleet Hospital Field Training (FHFT) conducted only at FHOTC 5 days**
- **Indoctrination and Orientation (I&O) Exportable Training 1 day conducted at any Fleet Hospital Command**
- **Operational Readiness Evaluation (ORE) 5 days**
- **Expeditionary Medical Facility Pre-Deployment Training**

TOTAL # STUDENTS ANNUALLY: 2,500

Naval Survival Training Institute

Provides safe, effective, and relevant aviation survival a human performance training in order to met CNO and F operational requirements.

Eight geographic locations – Aviation Survival Training Centers

Naval Aviation Survival Training Program – 21 different CNO-approved curricula tailored to aircraft and equipment. General categories:

- **Aircrew Indoctrination Training - 2 to 7 days depending on course**
- **Aircrew Refresher Training (Four year re-qualification interval) – 2 days**
- **Non-aircrew Training – e.g. selected passengers – 1- 2 days**
- **Non Aircraft Specific Training – e.g. helo dunker or centrifuge – 1 day**
- **Aerospace Physiology Technician Course – 5 weeks**

TOTAL # STUDENTS ANNUALLY 22,500

Naval Aerospace Medical Institute

Provides technical and professional support, aeromedical consultativ services, develops and administers medical standards for Naval avia and trains medical personnel for aeromedical operational requireme

COURSES AND LENGTH

1. **Naval Flight Surgeon 6 months**
2. **Naval Aerospace Physiologist 6 months**
3. **Naval Aerospace Experimental Psychologist 6 months**
4. **Naval Aviation Optometrist (AQD) 6 months**
5. **Aerospace Medicine Technician 10 weeks**
6. **Aerospace Medicine Residency 12 months**
7. **Flight Surgeon Refresher Training 2 weeks**
8. **Medical Student Clerkship**

TOTAL # STUDENTS ANNUALLY 240

AEROMEDICAL DISPOSITIONS:

Number of consultations annually: 14,400
Number of physicals annually: 6,200

PHYSICAL QUALIFICATIONS PROGRAM:

Waiver physical exam applications processed : 13,512
Aviation Selection Test Battery : 10,699

Naval Undersea Medical Institute

Provides training and technical support in Undersea Medicine and Radiation Health.

COURSES AND LENGTH

1. Undersea Medical Officer Candidate Course 23 weeks

2. Radiation Health Officer Course 04 weeks

3. Sub Force Independent Duty Corpsman 58 weeks “C” School

4. Radiation Health Indoctrination Course 02 weeks

5. Radiation Health Technician “C” School 10 weeks

6. Independent Duty Corpsman Refresher 05 weeks Training

7. Surface to Submarine IDC Conversion 20 weeks Course

Surface Warfare Medicine Institu

Provides global medical support, training and consultatio Surface Forces on all issues regarding afloat operations. Coordinates and performs operational readiness training, LCAC Medical Screening, reference publications, course execution and curriculum revision.

COURSES AND LENGTH

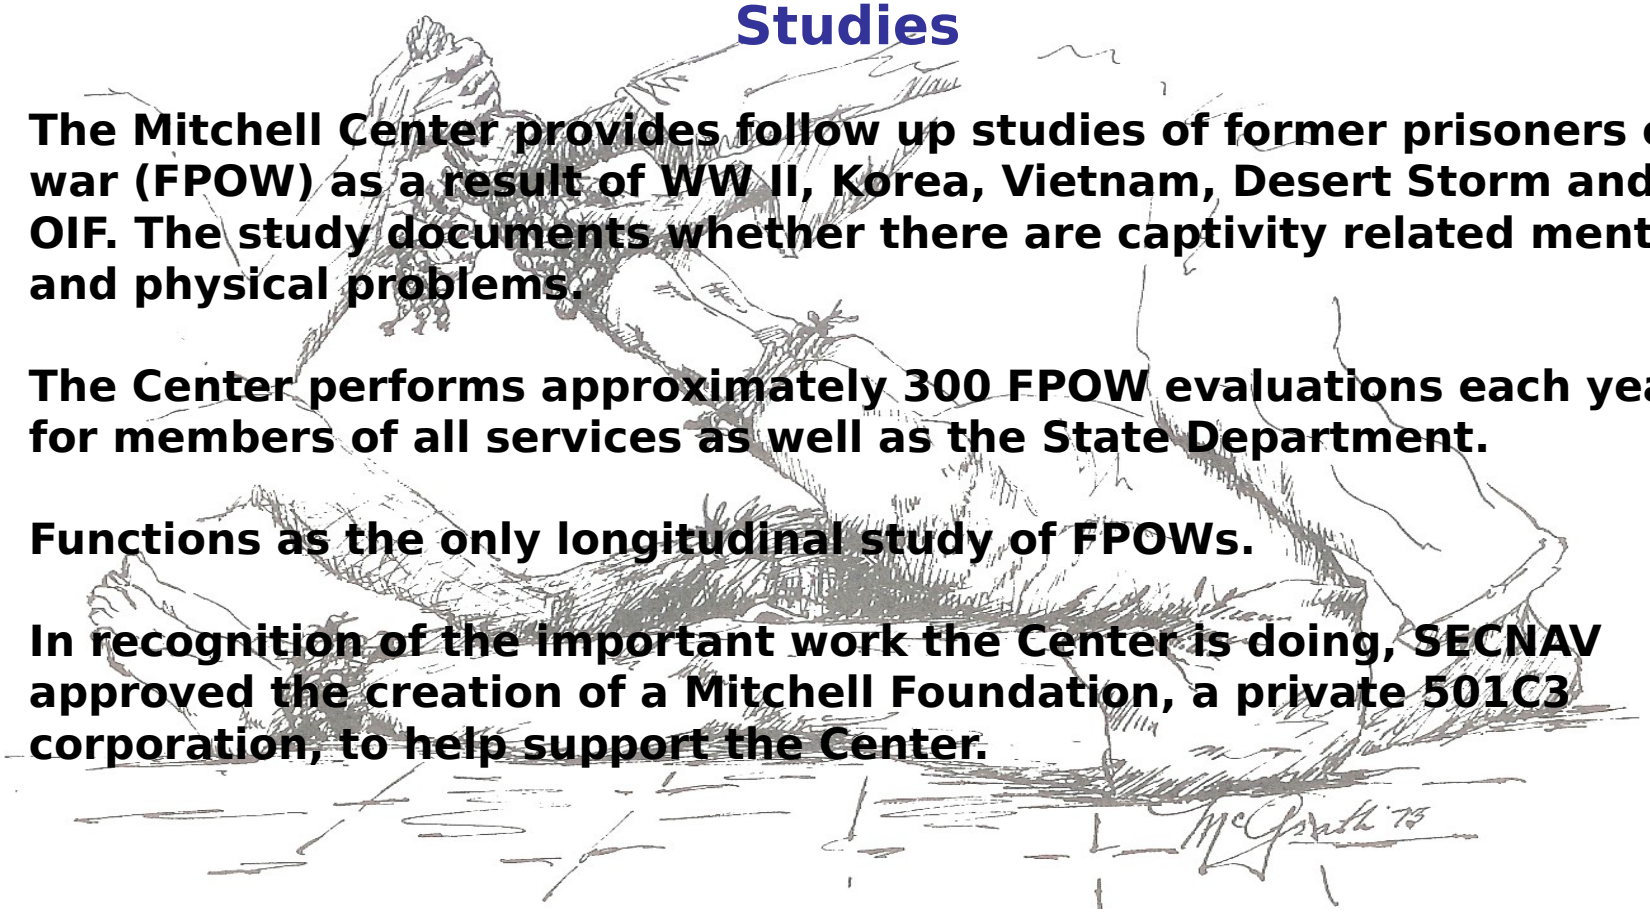
1. CATF Surgeon Course	2 weeks
2. SWMOIC	4 weeks
3. CRTS Medical Augmentation Program	4 days
4. Medical Regulating Course	3 days
5. SWMDOIC	2 weeks
6. Operational Medicine Symposia	1 day
7. MMHAC	2 days

TOTAL # STUDENTS ANNUALLY 737

Landing Craft Air Cushion Physical Qualifications Program:

Applicant Physicals processed	112
Consultations	35

R. E. Mitchell Center for Repatriated Prisoner of War Studies



The Mitchell Center provides follow up studies of former prisoners of war (FPOW) as a result of WW II, Korea, Vietnam, Desert Storm and OIF. The study documents whether there are captivity related mental and physical problems.

The Center performs approximately 300 FPOW evaluations each year for members of all services as well as the State Department.

Functions as the only longitudinal study of FPOWs.

In recognition of the important work the Center is doing, SECNAV approved the creation of a Mitchell Foundation, a private 501C3 corporation, to help support the Center.

Navy Medical Lessons Learned Center

- Collects, analyzes, manages and disseminates knowledge gained through fleet and operational experiences, exercises, emerging issues, trends, and supporting activities in order to enable medical support elements to achieve higher levels of performance, by providing information in support of the war fighter.
- Designated as a Navy Warfare Centers of Excellence
  - -General Admin message from CNO/290027Z JAN 2004,
  - -CFFC message 072251Z APR 2005
  - -NTTP 1-01, APR 2005
- Aligned with Navy Lesson Learned System through NWDC
- Center collaborates with USMC, USA, and AF LL centers
- Over 2,000 observations, lessons and reports housed within the Consolidated Data Repository and lessons management system

Access the MLL Center www.nomi.med.navy.mil

Tactical Combat Casualty Care

- **NOMI designation as TCCC Committee Chair by Ms. Ellen P. Embrey, Deputy Assistant Secretary of Defense for Force Health Protection and Readiness and Director, Deployment Health Support**

- **NOMI directed by NMETC to coordinate Committee on Tactical Combat Casualty Care**

- **The Committee drafts and publishes the guidelines for Tactical Combat Casualty Care:**
  - **These guidelines are used to train combat medics, combat life savers, and others to provide pre-hospital trauma care in tactical settings.**

En route Care

- OCT 03 - MCCDC requested BUMED to provide training for a helo-based en route care system; NOMI tasked to coordinate ERC course development
- AUG 04 - Military & civilian SMEs convene to draft ERC curriculum
- JAN 05 – Initial ERC course held at Camp Lejeune w/ 2nd MED BN
- FY 05 - Three subsequent ERC courses taught at Camp Pendleton and in Okinawa; curriculum evaluated and modified
- APR 06 - ERC Course curriculum prepared for formal BUMED review; NOMI currently working to establish course ownership, request ,and delivery site(s)
- MAY 06 - Next scheduled ERC evolution set for Camp Pendleton and will feature comprehensive use of course assessment metrics

Our Mission

Train, support and sustain operational readiness for Naval Forces, other U. S. Armed Forces, Allies and selected civilians through the following initiatives:

- Naval Aviation Survival Training Program: To enhance operational readiness by identifying issues relating to improving human performance and preventing human factor mishaps.
- Education and Training Programs: For medical personnel serving in and supporting the war fighting communities of aviation, undersea and surface Navy.
- Supporting Programs: For Fleet Marine Force and other armed services medical personnel.
- Operational Related Issues: Provide technical support, consultative services and advice to military forces worldwide.
- Repriated Prisoner of War Program: To care for our nation's POW's and to identify health related risks of internment for future members of armed forces.
